2024 Play Day Registration Process

Players must register online. All participants will be required to create an account if they have not already created one. Participants will only be allowed to register after a new account has been created and can register other WPGA Members that they are planning on playing with. **Groups of 1 to 4 WPGA Members will be allowed to register.** If you plan on playing with a foursome, please be sure to register all 4 players together.

Once the lottery for each Play Day has been processed, no additional players may be added. If your registration has less than 4 players, your group may be paired with another registration.

All Play Days that fill and have a wait list before the close of the registration deadline will be subject to a lottery system that randomly selects which groups will be admitted into the Play Day. Players will receive a confirmation email if they are chosen through the lottery the day after the close of registration. Play Days that do not fill within the registration deadline will be reopened and players will be admitted on a first-come first-serve basis.

Selecting a Tee Time – Round Sign-Up

New for 2024, the tee time selection will be done **exclusively through Golf Genius**. No tee time preferences will be approved or monitored through email.

Confirmed players with an email address associated with their account will receive an email one hour before the start of Round Sign-Up. **Round Sign-Up will open 7 days before the Play Day date at 9:00 AM**. **Round Sign-Up will be open for 48 hours,** following the closing of Round Sign-Up, teams that did not select a tee time will be automatically assigned an available time.

This can be done on the event portal, through the **Tee Time Registration** drop-down. Please see below for reference.

Once all tee times are confirmed, groups will be notified of their confirmed time via email.

Please note that only one member of the group can select their group's tee time through the Round-Sign Up. All players must have an email associated with their Golf Genius account to receive all relevant information.

Any questions can be addressed to playdays@wpga.org.
